NASA SEWP VI Contract Holder

DMS International (Data Management Systems, Inc.) is a NASA SEWP VI Contract Holder (#80TECH26D0340) under Category C, IT Mission-Based Services. NASA SEWP VI is a Government-Wide Acquisition Contract designed to provide federal agencies with streamlined access to Information Technology, Communication, and Audio-Visual solutions and services.

Through SEWP VI, federal agencies and approved contractors may access DMS International's program and mission support, instructional design and AI-enabled training technologies, software engineering and Web3 systems.

About DMS International

DMS International is a Woman-Owned Small Business specializing in management, training, and information and communication technology services for the Federal government and the private sector. Founded in 1994, DMS International provides program and mission support, instructional design and AI-enabled training technologies, software engineering and Web3 systems.

SEWP Overview

The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup," provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space.

Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support — more than 50,000 orders a year.

Fair Opportunity

NASA SEWP VI is a multi-award Government-Wide Acquisition Contract (GWAC). Contractors will be provided a fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools. No documentation for the order selection is required to be submitted with the order. All such documentation is to be maintained by the issuing procurement office.

The Contractor shall not market, quote or otherwise offer for sale, any IT Solutions not listed under this contract, until the said solutions are included in the SEWP database of record, and available to all Government end-users.

Additional information about fair opportunity when using SEWP contracts is at <https://www.sewp.nasa.gov/sewpv/fairoppportunity.shtml>.

What's in Scope

Category C includes ITC/AV mission-based Information Technology Communication (ITC) and Audio Visual (AV) services under NAIC 541512. This Category provides federal agencies with customized solutions at a mission/program level for improvement and enhancement of agency ITC/AV infrastructure.

The final scope eligibility is determined by the applicable SEWP VI contract, the selected category, the customer requirement, applicable NAICS and business size criteria, and NASA SEWP processes.

Requesting a Quote

Federal customers may request a quote from DMS International through the NASA SEWP Request Tool. The URL is <https://www.sewp.nasa.gov/sewpv/sewp5public/security/login.sa>.

If you would like to discuss requirements during the market research phase, contact the DMS SEWP VI Program Management Team at sewpvi@dmsinetwork.com.

Program Support

If you need assistance with your contract's installation, warranty, technical support, or troubleshooting a problematic order, contact the SEWP Program Team at sewpvi@dmsinetwork.com.

Ordering Process

All orders and modifications must be routed through NASA SEWP.

1. **Requirements:** Define the scope, outcomes, evaluation, contract type, schedule, acceptance, and compliance needs.
2. **Fair opportunity:** Use NASA SEWP Quote Request Tool or another NASA-authorized method to issue the request.
3. **Evaluation.** Evaluate responses and document the decision.
4. **Order Routing:** Issue the order and routes the record through NASA SEWP.
5. **Order Processing:** NASA reviews, tracks, and assigns the SEWP Control Number.
6. **Acceptance:** DMS International confirms the processed order and performs under the accepted terms.

What's Included in the Task Order

The task order should include:

1. Signed and dated agency order
2. Contract number
3. Order number
4. Total amount
5. Quote reference
6. Line items
7. Delivery or performance details
8. Agency contacts
